# IV2492X

iVSEC Adaptor Box (Needed for IV2490X Junction and IV2491X Wall Mount)

## Product Overview

The IVESC IV2492X Mount Cover is an essential accessory that enhances the functionality and longevity of your surveillance equipment. This cover is specifically designed to protect dual camera mounting junction boxes, ensuring that your camera connections remain safeguarded against adverse weather conditions, dust, and other environmental factors. With its robust construction and precise engineering, it's a vital component for ensuring the ongoing performance of your security system.

What sets the IV2492X Mount Cover apart is its exceptional durability and resilience. Crafted from high-quality materials, it effectively shields your dual camera mounting junction

boxes from the elements, maintaining the integrity of your surveillance installations. Its IP66-rated design guarantees that it can withstand challenging outdoor environments, making it ideal for both commercial and industrial applications.

Additionally, the cover's simple yet efficient design ensures hassle-free installation and maintenance. It keeps your security cameras clean, reducing maintenance requirements and prolonging their lifespan. The IV2492X Mount Cover is a cost-effective solution that ensures your surveillance investments remain protected and productive, delivering peace of mind for your security needs.
